Description

Compatible for: T-REX 650X

650 carbon fiber main blades integrates agility with stability effectively improve the flying stability and buoyancy. Enhance the power for better control and increase anti-torsion strength during flight. The new airfoil design effectively minimizes turbulence at the blade tips allow to reduce blade noise and power loss.

Shape: Symmetrical airfoil

Range: 650X/650X / 15cm

Thickness: 1.2mm

Shaft Diameter: 4mm

Weight: Approx. 270g/set
