Description

- Aqua Color Basic:**
- The perfect primer for a flawless colour finish - 25ml**
- Aqua Color Basic is a high-quality primer paint specially developed for the optimal preparation of your models and projects before the actual colour application. The 25ml bottle contains a ready-to-spray mixed primer that is ideal for application with an airbrush gun.
- The use of Aqua Color Basic offers numerous advantages:**
- Perfect base:** After filling and sanding, the primer provides an even, well-adhering surface that facilitates the application of paint and improves the colour result.
- Maximum opacity:** Lighter colour shades can be easily applied to dark substrates if the surface has been primed beforehand with Aqua Color Basic.
- Compatibility:** The primer is specially developed for use with shades from the Revell Aqua Color colour range, so excellent adhesion and a professional result are guaranteed.
- How to use Aqua Color Basic:**
- Shake the bottle thoroughly before use.**
- Fill the ready-to-spray primer into your airbrush gun.**
- Apply the primer evenly and in thin layers to the surface to be worked on.**
- Let the primer dry completely before proceeding with the paint application.**

Aqua Color Basic is an essential product for modellers, DIY enthusiasts and hobbyists who value a professional and flawless colour finish. Order your 25ml bottle of Aqua Color Basic now and prepare your projects perfectly for paint application!
