### Description

#### Flysky Noble NB4 Pro+ Radio incl. 2 Receivers

The Flysky Noble NB4 Pro+ is the most powerful model in the NB4 series. In addition to its high-quality workmanship and modern design, the NB4 Pro+ also impresses with its top performance. The remote control is equipped with the third-generation 2.4 GHz AFHDS-3 protocol, which enables extremely low delay and precise control. The simple operation via the new interface makes it easy even for beginners to get started and leaves plenty of room for optional configurations.

The transmitter has an ultra-fast 2-channel mode, which ensures low latency and allows users to control as precisely as possible - even in the most hair-raising moments. The 3.5-inch display has been significantly redesigned compared to its predecessor and now impresses with a really powerful use of contrast and brightness, making the NB4 Pro+ ideal for outdoor use. Other new features include a USB-C input, a better battery and a dual battery system.

As usual, the NB4 Pro+ like its predecessor, comes in a high-quality PVC case and with two receivers.

#### Features:

Advanced, modern transmitter

Includes extensive teacher/parent function

Compatible with all iBus devices and also with some Hobbywing products (e.g. Xertu AXE R2 controller)

Really customizable channels

Ergonomic design with swivel steering wheel

Suitable for right- and left-handed users

Dual battery system

Can also be used in simulations, etc., Applications (activated by default)

#### Specs:

Type: 2.4GHz ISM

Frequency protocol: AFHDS-3

Software version: Noble Pro V3.0

Channels: 16

Transmit power: 1W/8dBm

RC mode(s): Car, boat, robot

Distance: >300m (ground)

Channel resolution: 400K

Battery: 1S / (M.2V) x 4300mAh Lipo battery

Low voltage warning: smaller than 3.65V

Antenna type: Built-in single antenna

Display: 3.5-inch IPS touch screen, resolution 320x480px

Hardware interface: USB/USB-C

Temperature range: -10°C to 45°C

Humidity range: 20% to 95%

Online update: Yes

Dimensions: 142.7 x 120 x 232 mm

Weight: 670g
