Description

The Futaba 3PV Radio System is sophisticated, powerful and easy to use. Pick up the 3PV and instantly feel how lightweight it is. Once you access the programming menu on the easy-to-read screen, you will instantly recognize how sophisticated the programming is. But the real experience happens when you get to take advantage of the 3PV's super-fast response rate. This is a system that can make a difference on race day. You also get FHSS, S-FHSS and T-FHSS protocols, making it one of R/C's most versatile surface systems.

This version of the 3PV with R304SB telemetry receiver (FU1K3200) is for those that want to keep an eye on their receiver voltage. But the 3PV is also available with a high-voltage R200CF receiver (FU1K3201) that is perfect for brushless ESCs and digital servos.

FEATURES

FHSS/S-FHSS/T-FHSS protocols

Channel memory

Model Recall

Model Name (4-Character)

Low Battery Alarm

Link Mode (T-FHSS only)

DTF Selection

SDM

Steering Trim

Throttle trim

Channel 4 Trim

Sub Trim

Steering Dual Rate

Steering End Point Adjustment (spaced)

Throttle End Point Adjustment

Channel 3 End Point Adjustment

Channel 4 End Point Adjustment

W/S Brake Mapping

Steering Servo Reversing

Throttle Servo Reversing

Channel 3 Servo Reversing

Channel 4 Servo Reversing

Steering Exponential

Throttle Exponential

Throttle Fail Safe

ABS Function

Model Data Copy

Auto Power-Off after 10 minutes

Note: T-FHSS available only with R304SB receiver

Radios - Pistol Grip Type: Futaba 3PV 2.4GHZ Radio W/ R304SB Receiver

RFCS

RF Transmitter

Type: 3-Channel FHSS-FHSS/FHSS

Includes: 3-Channel R304SB Receiver

Requires: (4) "AA" alkaline batteries, or 3.0V 1900mAh LiFe battery (RCAM521), or 3V NiMH Battery (FUTM488)

R304SB Receiver

Type: 3-Channel FHSS-FHSS/FHSS

Rated Power: 4.8V/7.4V

Dimensions: 1.38 x 0.91 x 0.33 in (35.1 x 23.2 x 8.5 mm)

Weight: 0.23 oz (6.6 g)
