Description

The Futaba R7206SB is a highly versatile full range receiver that is capable of operating on FASSTest transmission systems. It offers 6 conventional PWM channels and up to 18 S-Bus channel outputs while still remaining very compact and lightweight. The tough moulded case helps protect the electronics in day to day use and the diversity antenna offers reliable and strong signal reception.

BASIC INFO:

S-2 Directional Communication System

FASSTest (18ch and 12ch)

Telemetry using FASSTest system

PWM allows 6 channels

S-BUS allows 18 channels

Small and lightweight

Moulded plastic case

Real antenna diversity (coiled antenna)

Full range operation

SB20DS

Channel: 6-18

Dimensions: 30,3x22,5x12,2mm

Weight: 8.5g

Operating Voltage: 4.8 to 6.0V

Number of Ports: 6

S-Bus Ports: 1

S-Bus2 Ports: 0

FASSTest: Yes

S-BUS2: No

Telemetry: Yes

High Speed: Yes

High Voltage: Yes
