### Description

The Platinum V5 260A HV V5 provides constant speed control, ensuring an excellent flying experience without BEC though. The innovative housing design, featuring additional windows on the sides and internal structure, enables highly effective heat dissipation. This allows the generated heat to be directly transported from the circuit board to the outside through the shortest path. This is particularly necessary because the integrated 32-bit processor enhances the RPM algorithm's precision, thereby further strengthening the overall performance of the Platinum ESC (Electronic Speed Controller). The finely adjustable speed sensitivity ultimately allows every pilot to find a setting that suits them perfectly.

The ESC also incorporates Efficiency Optimization Technology with Synchronous Rectification (DEO - Driving Efficiency Optimization) + Active Freewheeling, which brings several advantages at once:

- Faster throttle response, improved flight stability, and flexibility.

- Higher driving efficiency and longer battery life.

- Lower temperature increase of the ESC, ensuring reliability.

#### FEATURES

- Efficient cooling through a sophisticated heat dissipation system with windows.

- Supports multiple data protocols, e.g.

- Mikado V-Bar System, Futaba S-BUS2, MSH Brain, and KONI.

- Includes data recording accessible via the OTA module on the smartphone.

- Multiple protection features.

- 15 adjustable parameters, including 4 flight modes.

#### Prod. Wdg.

- Helicopter - External Governor

- Helicopter - Express Governor

- Helicopter - Store Governor

#### SPECS

- Type: Brushless High Voltage

- Current cont./peak: 260A/400A

- Cells: 6-14S LiPo

#### BEC

- Single battery/motor: 1x 8AWG (red, black)

- 1x 10AWG (blue)

- Programming: - LCD Programming Box

- OTA Bluetooth Programmer

- Separate Programming Port

- Firmware upgrade: Yes

- telemetry: Mikado V-Bar/Futaba S-Bus2

- MSH Kon Brain and etc.

- Dimensions: 69x45x34mm

- Weight (incl. cable): 297g

- Application: (HW-800) Electric Helicopter

- Main motor length: 85x38mm

#### INCLUDED

- 1 x ESC Platinum V5 260A HV OPTO

- 1 x Manual

## Reviews

There are yet no reviews for this product.
