Description

The QuickRun WP 10BL60 ESC brushless sensorless is specially designed for new beginners and intermediate modelers. This ESC is applicable to all-weather sport of 1/10th short course trucks, buggies, trucks, and monster trucks.

Hobbywing patented heat-conductive copper bar cover on the power board of the QUICKRUN WP-10BL60, which can efficiently and effectively transfer heat to the integrated CNC-machined billet aluminum heat sink housing, combined with reliable heat sink and high-performance cooling fan can keep your ESC as cool as possible.

Reliable hardware combined with advanced software technology allows the QUICKRUN 10BL60 to not only provide high power output but also overload protection of the ESC circuit.

The built-in switch mode BEC with a maximum output of 60mA and voltage of 6V make this ESC compatible with various servos.

The waterproof and dust-proof design allows the QUICKRUN WP-10BL60 to be used in all-weather conditions without any issue of damage caused to the ESC from water or dust.

FEATURES

High Reliability and Durability

Efficient Cooling System

Easy Operation

Applicable to All-Weather Conditions

Built-in BEC

Single-Button Programming and Factory Reset

SPECS

Scale: 1/10th

Brushed/Brushless: Brushless

Sensored/Sensorless: Sensorless

Waterproof: Yes

Peak Peak Current: 60A/60A

Input: 2-3S Lipo/E-9 Cells NiMH

BEC Output: Switch Mode 6V/10A

Input Wires: Red-14AWG-150mm*1,Black-14AWG-150mm*1

Output Wires: Black-14AWG-100mm*3

Input Connectors: Yes

Output Connectors: 4.0 Gold Connector (Female)

Pin Size: 30.0x30.0x10.0mm

Pin Voltage Range: 5-7.4V

Program Port: FAN/Program Port

Size: 48.5x38.0x32.0mm

Weight: 90g
