Description

This 1/8 radio controlled brushless monster truck is ready for some high-speed off-road racing straight out of the box with it's massive XL 550 3000kv Brushless motor, 100A brushless ESC and 7.4v 3500mAh Lipo battery, this beast will plow through dirt, grass, mud, water and anything else you throw at it straight out of the box. Pre-mounted front and rear sway bars and the metal geared front, centre and rear differentials provide the HSP 1/8 RC off-road truck with the great handling characteristic. Being 100% waterproof and the sheer size of this monster truck will make anywhere your playground regardless what the weather is.

FEATURES:

- 100% Waterproof
- Sway Bars
- Center Differential
- Steel Caster
- 550kv Brushless XL 550 Speed Motor
- Hi-Torque Metal Geared Steering Servo
- Programmable Brushless 100A ESC
- Long Travel Suspension
- 2-Channel Radio w/ 10-Burn Radio
- Large 3500mAh 7.4v Lipo Rechargeable Battery. *Note that batteries are volatile equipment and can malfunction or catch fire with wrong usage. Remove batteries from all equipment when stored for long periods. No damage to equipment are covered or will be repaired in case of damage.*
- S.T. Power B3 1.5A Fast Lipo Charger

SPEC:

- Length: 510mm (20.0")
- Width: 300mm (11.8")
- Height: 200mm (7.9")
- Weight: 3700g (8.16lbs) (excluding battery)
- Wheel Base: 325mm (12.79")
- Ground Clearance: 72mm (2.83")
- Power: 4W

REQUIRED TO COMPLETE:

- 2-2A Batteries

MASSIVE GROUND CLEARANCE:

The HSP Savagery has a huge 2.83" ground clearance. This monster can go almost anywhere. Tackle the dirt and grass (a paddock for example), gravel and compact dirt (a BMX track for example) no problem.

3000KV BRUSHLESS MOTOR:

Those days when you want speed, brushless is the only way. Inside this RC vehicle is a pre-installed 3000KV 550 sized brushless motor that can unleash a huge amount of power for high top speeds and is more efficient for longer run times.

100A BRUSHLESS ESC:

The programmable brushless 100A speed control is loaded with high-grade technology to deliver maximum power to the motor. When running a Lipo battery the low voltage detection prevents the battery from being over-discharged, and advanced circuit design gives smooth power delivery at any speed.

ALUMINUM CAPPED SHOCKS:

In add extra durability HSP has included aluminum hardware for all four shocks. Easily adjust the suspension by simply screwing the nut to tighten the spring.

DRIVE WITH CONFIDENCE:

The ENSKY GT2 has a super long range of ~300 meters and comes with a built-in programmable fail safe which means if it loses connection the vehicle will just roll to a stop.

GENUINE PARTS SUPPORT:

We stock most replacement HSP parts for this model to ensure you get back up and running in no time! Or if you wanted to hop up your ride with HSP's upgrade parts give us a call. Spares we don't have in stock we can certainly order.

S.T. Power B3 FastBalance Lipo Charger:

Quick charge times! Less waiting for your batteries to charge and more using them with the 2.3 hour charge time. You always want to charge a Lipo battery with a quality charger like the B3 to ensure long lifetime of your battery and to provide peace-of-mind while charging your batteries.
