Description

- Nitecore's New i2 IntelliCharger is an affordable, simple, and efficient two bay charger with twice the charging speed from the original i2 charger.
- Nitecore's New i2 Intelli-Charger is an affordable, simple, and efficient two bay charger with twice the charging speed from the original i2 charger. The New i2 Charger is capable of charging numerous NiMH, Li-Ion, LiFePO4, Ni-MH, and Ni-Cd batteries, and is optimized for NiMH cells. With the Active Current Distribution (ACD) Technology, the New i2 automatically identifies battery type and capacity, and supplies an appropriate charging current up to 2.4A.
- The New i2 is also able to recover low voltage cells with the new Lithium Battery Recovery Mode, bringing new life to over drained cells. Nitecore has implemented numerous safety features such as: over charge protection, over time protection, short circuit protection, reverse polarity protection, and a fire resistant Polycarbonate housing. The Nitecore New i2 IntelliCharger is an affordable, fast charging, and safe two bay charger for all your rechargeable batteries.
- This charger recharges lithium, NiMH and NiCd batteries.
- The electronics detect the inserted battery.
- Adjusts the charging behavior.
- The 4 LEDs indicate the charging status of each battery.
- After charging the IntelliCharger switches i2 automatically.
- Capable of charging 2 batteries simultaneously.
- Each of the two battery slots monitors and charges independently.
- Automatically identifies Li-Ion, Ni-MH and Ni-Cd rechargeable batteries.
- A color LED displays charging progress for each battery.
- Automatically detects battery status and selects the appropriate voltage and charge mode.

Note:
Rechargeable AA Batteries not included
