Description

Savox's SC-1256TG Black Edition Standard Digital "High Torque" Titanium Gear Servo features a sleek black aluminum center case with laser etched details, as well as a shorter 200mm long heavy duty wire. The SC-1256TG is ideal for steering applications in 1/8 scale buggies, monster trucks and rock crawlers.

FEATURES

- Sleek aluminum center case
- Shorter 200mm black shielded lead wire
- Combines leading edge technology with super high 12 bit (4096) resolution and titanium gears
- Super light-weight
- Coreless motor provides high speed, incredible efficiency, and low power consumption
- Titanium gears ensure long life and durability
- The aluminum case design not only looks good, but also allows for cooler operating temps.
- Our servos are totally green -- from materials to production, these servos are environmentally friendly.
- Ideal for steering applications in 1/8 scale buggies, monster trucks and rock crawlers.
