| Overview                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| The Spektrum AR410 receiver is a full-range, 4-channel sport receiver with DSMX/DSM2 compatibility and a compact footprint that's retrofitted to fit in a wide range of models. More than just a simple box that connects your servos, the AR410 features an internal antenna design that delivers a whole new world of freedom that includes a higher-level of durability and convenience while maintaining superior full-range performance for your electric or engine-powered aircraft. |
| In addition, the AR410 has been integrated with fly-by-wire telemetry that includes flight log and receiver battery pack voltage data. Access to telemetry is automatic when used with telemetry-capable Spektrum transmitters.* There's nothing to do in order to enjoy the peace-of-mind instantly knowing receiver battery voltage.                                                                                                                                                     |
| No more bind plugs! Instead, a large bind button is used to enter the bind mode. All contained Spektrum gives you more in a basic receiver, like the AR410, so that you can fly with the highest sense of confidence possible and have more fun.                                                                                                                                                                                                                                           |
| Not compatible with the TM1000 and TM1200 external telemetry module.                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Key Features                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Compact low-cost, full-range DSMX receiver with telemetry                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Antenna-less design increases convenience, performance and durability                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Integrated flight log and receiver voltage telemetry with fly-by-wire                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Streamlined, end-pin design in a lightweight hard-case                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Large bind button eliminates the need for the old bind plug                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Lightweight park flyer-size with full-range performance                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Works for most aircraft including motor sport models                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Capable of low-latency 11ms and standard 20ms Frame Rates                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Specs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Antenna Length: Internal                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Band: 2.4GHz                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Bind Method: Bind Button                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
