Description

Description

The Grand Hauler resembles a classic customized American tractor truck. The included 540 motor drives a 3-speed transmission, which has no problem turning the dual rear axle. Leaf spring and shocks keep the axles suspended to the metal C-channel ladder frame, which keeps the power to the pavement. Whether by itself or coupled to an optional trailer, the Grand Hauler is sure to turn heads.

Features

Front bumper

Grille

Head

Mounted chassis

Special Features

1. Length: 650mm, width: 190mm, height: 300mm

2. The realistic, lengthened body features newly-designed parts depicting front and rear bumpers, front grille, air cleaners and muffler covers. Muffler covers are made from metal tubing.

3. Features a tough ladder frame construction with aluminum side channels and plastic cross members.

4. Realistic drivetrain setup uses the front mounted motor powering both rear axles.

5. Metal leaf spring dampers with bulkier coil springs provide durable suspension.

6. Newly-designed 1/14 scale driver figure included.

7. Coupler is included to enable connection with any currently available Tamiya 1/14 scale trailer.

Required to Complete:

1. 7.2 Battery and Charger

2. 4 Channel Radio Set

3. Electronic Speed Control

4. Tamiya TS Plastic Model Paint
