Description

New for 2022! We present the redesigned wooden model ship kit to build the captain's boat of the British ship HMS Endeavour at 1/50 scale. Kinder and easier assembly experience, improved quality of materials and more precise instructions are some of the great features incorporated into this new ship model. It is an ideal ship model kit to start in naval model building.

Once built, the miniature naval replica measures 16.53" (420mm) length x 3.54" (90mm) width x 10.63" (270mm) height. Watch the contents of the
